FIT DETAILS

Aero Cut

Ultra-form fitting and designed to be like a second skin.

MATERIALS

- 
ATO™ Fabric
 A microfilament-elastic material that is quick dry and provides excellent wicking properties.
- 
HOS™ Fabric
 A performance material with directional stretch and a diamond pattern to help accentuate breathability.

- 
Mesh-Tech™ Fabric
 A 4-way stretch material made from micro-denier fibers that encourage air circulation.
- 
Stretch FIT™ Fabric
 A specially knitted, lightweight moisture management material with micro-compression that can be clean cut.

FEATURES + TECHNOLOGIES

- 
Comfort+ Pocket Technology
 A specially designed pocket that is comfortable and aero while capable of being stuffed.
- 
Full Separating Hidden Zipper
 A specially installed concealed zipper, so your custom design is uninterrupted.
- 
Power Fit Technology
 A body-contouring fit designed to decrease aerodynamic drag.
- 
Seamless Shoulder Technology
 A purposefully designed pattern with an integrated sleeve and upper back to reduce aerodynamic drag.
- 
Minimal Tension Gripper
 A silicone elastane band for a comfortable, no-slip fit that can be custom printed.
- 
Tagless Labeling
 A smooth surface, sublimated labels that will not irritate your skin.
- 
Vibrant Unlimited Colors
 Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.
- 
Mesh Vent Panels
 Strategically placed mesh panels to allow for ventilation.

DESCRIPTION

The Men's TOR short sleeve cycling jersey is the flagship model in our line. It's the culmination of years of product development and experience. The finest technical fabrics have been used bar none; along with a proprietary pattern, clean cut sleeves, and the latest elastic tapes. Designed for aggressive road riding but strong enough to use on the MTB circuit. Aero cut, ultra-form fitting and designed to be like a second skin.

FIT DETAILS

Aero Cut

Ultra-form fitting and designed to be like a second skin.

MATERIALS

Altura™ Fabric

An extremely lightweight, supple material with 4-way stretch and excellent wicking properties.

HOS™ Fabric

A performance material with directional stretch and a diamond pattern to help accentuate breathability.

Stretch FIT™ Fabric

A specially knitted, lightweight moisture management material with micro-compression that can be clean cut.

FEATURES + TECHNOLOGIES

Full Separating Zipper

A fully opening zipper which allows maximum ventilation control.

Silicon Gripper

A micro-fiber elastic with silicone added to help keep your garment in place.

Power Fit Technology

A body-contouring fit designed to decrease aerodynamic drag.

Traditional Stitching

A durable and proven four-needle overlock serge stitching.

Tagless Labeling

A smooth surface, sublimated labels that will not irritate your skin.

Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

DESCRIPTION

While the Men's Speed short sleeve cycling jersey is new to our collection, it has quickly become the top choice of our competitive riders. Clean cut sleeves and directional stretch Altura™ fabric combined with a body contour pattern promotes movement and speed without sacrificing comfort. Perfect for aggressive riding, winning in a solo effort or just bumping elbows in the peloton. This jersey excels in warm/hot conditions. Aero cut, ultra-form fitting and designed to be like a second skin.

FIT DETAILS

Aero Cut

Ultra-form fitting and designed to be like a second skin.

MATERIALS

ATO™ Fabric

A microfilament-elastic material that is quick dry and provides excellent wicking properties.

Paso™ Fabric

An extremely lightweight, closed mesh stretch material made from quick dry yarns.

FEATURES + TECHNOLOGIES

Full Separating Zipper

A fully opening zipper which allows maximum ventilation control.

Traditional Stitching

A durable and proven four-needle overlock serge stitching.

Power Fit Technology

A body-contouring fit designed to decrease aerodynamic drag.

Silicon Gripper

A micro-fiber elastic with silicone added to help keep your garment in place.

Minimal Tension Gripper

A silicone elastane band for a comfortable, no-slip fit that can be custom printed.

Tagless Labeling

A smooth surface, sublimated labels that will not irritate your skin.

Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

Mesh Vent Panels

Strategically placed mesh panels to allow for ventilation.

DESCRIPTION

Completely redesigned the Men's Lato short sleeve cycling jersey is perfect for those of you seeking a minimal jersey for sweltering days. Not only is it one of the lightest jerseys available on the market but we updated the fabric for unmatched moisture management. Aero cut, ultra-form fitting and designed to be like a second skin.

FIT DETAILS

Aero Cut

Ultra-form fitting and designed to be like a second skin.

Fitted Cut

Snug fitting and designed to contour your body.

MATERIALS

Altura™ Fabric

An extremely lightweight, supple material with 4-way stretch and excellent wicking properties.

Corsa™ Fabric

A lightweight, opaque material that is soft and supple with directional stretch and a textured rib surface.

Stretch Lite™ Fabric

An ultra-lightweight material with a flat surface, 4-way stretch, and excellent wicking capability.

FEATURES + TECHNOLOGIES

Full Separating Hidden Zipper

A specially installed concealed zipper, so your custom design is uninterrupted.

Minimal Tension Gripper

A silicone elastane band for a comfortable, no-slip fit that can be custom printed.

Power Fit Technology

A body-contouring fit designed to decrease aerodynamic drag.

Silicon Gripper

A micro-fiber elastic with silicone added to help keep your garment in place.

Tagless Labeling

A smooth surface, sublimated labels that will not irritate your skin.

Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

DESCRIPTION

The Men's Strike short sleeve cycling jersey is a workhorse, with panel-specific fabrics which promote a body contour fit while retaining comfort and style. Designed as a road specific garment but tough enough to be used in the mud. Pin on a number, stuff your pockets or just hammer the open roads and you will see why it has become our best-selling jersey.

Bottom Cut

Tight fitting and designed to be like a second skin.

MATERIALS

Vivid™ Fabric

A light-weight 4-way stretch mesh material made from wicking fibers.

Lot™ Fabric

An opaque 4-way stretch material made from specially engineered fibers designed to deepen sublimated colors.

Gregario Fixed™ Fabric

A strong, 4-way stretch material with a textured surface and high thread count that is soft and supple.

FEATURES + TECHNOLOGIES

Power Fit Technology

A body-contouring fit designed to decrease aerodynamic drag.

Tagless Labeling

A smooth surface, sublimated labels that will not irritate your skin.

Radio Pocket

A purposefully designed pocket to securely stow your race radio.

Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

V-Comfort Bib Strap

A comfortable bib strap that fits a variety of torso lengths without being intrusive.

Minimal Tension Gripper

A silicone elastane band for a comfortable, no-slip fit that can be custom printed.

DESCRIPTION

Our Men's Strike cycling bib short is the most in-demand model in our collection. New fabrics and finishing techniques make this the most well-rounded bib short we offer. Comfortable and durable are just the beginning which means you can expect superior performance regardless if you're going for a 5-hour road ride or about to depart on an epic gravel grind.

FIT DETAILS

Bottom Cut

Tight fitting and designed to be like a second skin.

MATERIALS

Vivid™ Fabric

A light-weight 4-way stretch mesh material made from wicking fibers.

Gregario Fixed™ Fabric

A strong, 4-way stretch material with a textured surface and high thread count that is soft and supple.

Lot Grip Imprint™ Fabric

An opaque 4-way stretch material made from specially engineered fibers with silicone gripper applied.

FEATURES + TECHNOLOGIES

Power Fit Technology

A body-contouring fit designed to decrease aerodynamic drag.

Radio Pocket

A purposefully designed pocket to securely stow your race radio.

Tagless Labeling

Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

DESCRIPTION

New to our line up, the Men's Elevate Bib Short is an improvement on our best selling model. Based on our Strike Bib Short, we removed the leg band while adding direct silicone grip to the inside of Lot™ Imprint fabric. This seemingly small change dramatically improves the fit, function, and comfort of the short.

FIT DETAILS

Bottom Cut

Tight fitting and designed to be like a second skin.

MATERIALS

 **Kobra Fixed™ Fabric**
A lightweight and breathable 4-way stretch fabric made from quick dry yarns.

 **Zomer Imprint™ Fabric**
An open mesh 4-way stretch material with a perforated look.

FEATURES + TECHNOLOGIES

 **Power Fit Technology**
A body-contouring fit designed to decrease aerodynamic drag.

 **Radio Pocket**
A purposefully designed pocket to securely stow your race radio.

 **Mesh Vent Panels**
Strategically placed mesh panels to allow for ventilation.

 **Tagless Labeling**
A smooth surface, sublimated labels that will not irritate your skin.

 **Vibrant Unlimited Colors**
Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

 **Minimal Tension Gripper**
A silicone elastane band for a comfortable, no-slip fit that can be custom printed.

DESCRIPTION

New to our line up, the Men's Lato Bib Short is the lightest in our offer. Demanding riders who want to stay as comfortable and dry as possible in the scorching heat will appreciate the purposefully chosen fabrics and trims such as mesh leg bands and nearly nothing bib straps.

FIT DETAILS

Bottom Cut

Tight fitting and designed to be like a second skin.

MATERIALS

Vivid™ Fabric

A light-weight 4-way stretch mesh material made from wicking fibers.

Lot™ Fabric

An opaque 4-way stretch material made from specially engineered fibers designed to deepen sublimated colors.

FEATURES + TECHNOLOGIES

V-Comfort Bib Strap

A comfortable bib strap that fits a variety of torso lengths without being intrusive.

A smooth surface, sublimated labels that will not irritate your skin.

Power Fit Technology

A body-contouring fit designed to decrease aerodynamic drag.

Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

Full Print

An all-over printing method that allows you to customize your entire garment.

DESCRIPTION

Completely redesigned the Strike Euro Bib Shorts use a similar pattern and identical features to our popular Strike model while offering all over printing. We're the first to admit these shorts are not for everyone but they certainly have their place in the peloton. When your team design or sponsor demand all over printing this is the bib short for you.

FIT DETAILS

Bottom Cut

Tight fitting and designed to be like a second skin.

MATERIALS

TF Trentino Fixed™ Fabric

A 4-way stretch brushed back material that provides great insulation while being shape-proof, made from LYCRA fibers.

TI Trentino Imprint™ Fabric

A medium weight brushed back stretch material with Aqua Zero water repellent treatment.

FEATURES + TECHNOLOGIES

Minimal Tension Gripper

A silicone elastane band for a comfortable, no-slip fit that can be custom printed.

Power Fit Technology

A body-contouring fit designed to decrease aerodynamic drag.

Minimal Tension Bib Strap

A highly stretchable mesh strap for comfort and breathability.

Tagless Labeling

A smooth surface, sublimated labels that will not irritate your skin.

Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

Radio Pocket

A purposefully designed pocket to securely stow your race radio.

DESCRIPTION

It's sunny and warm 365 days a year, right? We didn't think so which is why we created our Men's Zima cycling bib shorts made from Trentino fabric, which provides just the right amount of warmth without compromising comfort or fit. We like to put them on for our early spring rides and sometimes pair them with Zima leg warmers on colder days.

FIT DETAILS

Bottom Cut

Tight fitting and designed to be like a second skin.

MATERIALS

Defend Imprint™ Fabric

A lightweight wind and water-proof material that is supple and thin with a black inner surface.

Trentino Fixed™ Fabric

A 4-way stretch brushed back material that provides great insulation while being shape-proof; made from LYCRA fibers.

Defend Fixed™ Fabric

A black wind and water-proof material that is body contouring and stretchy.

FEATURES + TECHNOLOGIES

Minimal Tension Gripper

A silicone elastane band for a comfortable, no-slip fit that can be custom printed.

MATERIALS

Vivid™ Fabric

A light-weight 4-way stretch mesh material made from wicking fibers.

Xtream Fixed Woven™ Fabric

An extremely durable woven material with great wicking, colorfastness made from quick-dry fibers.

Xtream Imprint Woven™ Fabric

An extremely durable woven material with great wicking made from quick-dry fibers for sublimation printing.

FEATURES + TECHNOLOGIES

Woven Technology

Interlaced yarns that create a highly technical woven weave fabric.

Minimal Tension Gripper

A silicone elastane band for a comfortable, no-slip fit that can be custom printed.

Power Fit Technology

A body-contouring fit designed to decrease aerodynamic drag.

V-Comfort Bib Strap

A comfortable bib strap that fits a variety of torso lengths without being intrusive.

Tagless Labeling

A smooth surface, sublimated labels that will not irritate your skin.

Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

DESCRIPTION

We took everything we know about technical garment construction and paired that with a non-traditional material to make our Men's TOR cycling bib shorts. The result is the best performance cycling bibs possible, largely due to Xtream™ fabric which outperforms the competition on hot and humid days. If you're a demanding rider, then these lightweight, quick-dry bibs are designed specifically for your needs.

Power Fit Technology

A body-contouring fit designed to decrease aerodynamic drag.

Full Separating Zipper

A fully opening zipper which allows maximum ventilation control.

Tagless Labeling

A smooth surface, sublimated labels that will not irritate your skin.

Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

Full Print

An all-over printing method that allows you to customize your entire garment.

DESCRIPTION

The Men's Strike Euro Carrera short sleeve speedsuit offers a full separating front zipper and integrated rear pockets. We only suggest this model if your design or sponsor demand full print. Flight™ Imprint fabric assures strength and durability in the suit while the pattern has been optimized to maximize your design possibilities.

FIT DETAILS

Speedsuit Cut

Ultra-form fitting and designed to be like a second skin.

Kid's Cut

Comfortable fit with a little extra room to accommodate some growth.

MATERIALS

Gregario Fixed™ Fabric

A strong, 4-way stretch material with a textured surface and high thread count that is soft and supple.

Escape™ Fabric

A special use material that is elastic, opaque and has a good resilience to friction.

Lot™ Fabric

An opaque 4-way stretch material made from specially engineered fibers designed to deepen sublimated colors.

FEATURES + TECHNOLOGIES

Minimal Tension Gripper

A silicone elastane band for a comfortable, no-slip fit that can be custom printed.

Power Fit Technology

A body-contouring fit designed to decrease aerodynamic drag.

3/4 Hidden Zipper

A 45 cm long concealed zipper for ventilation control.

Tagless Labeling

A smooth surface, sublimated labels that will not irritate your skin.

Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

DESCRIPTION

Completely updated for the new season our Men's Strike short sleeve cycling speedsuit utilizes new fabrics and has an improved fit. This classic style speedsuit performs best in short mass start events such as a criterium or warm weather cyclo-cross race. Gregario™ Fixed Fabric is both durable and comfortable making the Strike speedsuit a versatile garment to have in your race bag.

FIT DETAILS

Speedsuit Cut

Ultra-form fitting and designed to be like a second skin.

Kid's Cut

Comfortable fit with a little extra room to accommodate some growth.

MATERIALS

Altura™ Fabric

An extremely lightweight, supple material with 4-way stretch and excellent wicking properties.

Stretch FIT™ Fabric

A specially knitted, lightweight moisture management material with micro-compression that can be clean cut.

Gregario Fixed™ Fabric

A strong, 4-way stretch material with a textured surface and high thread count that is soft and supple.

Escape™ Fabric

A special use material that is elastic, opaque and has a good resilience to friction.

 **Tagless Labeling**
A smooth surface, sublimated labels that will not irritate your skin.

DESCRIPTION

The Men's Aero-Therm winter cycling jacket is our go-to jacket due to its comfort and versatility. We love to use it with nothing more than a base layer when it's above freezing or layer garments underneath it on sub-freezing days. The insulated, wind and waterproof material, as well as the high collar, means you can count on this winter jacket to perform in harsh conditions. Rear pockets provide ample storage room for winter accessories helping to make this jacket perfect for all disciplines of cycling.

FIT DETAILS

Fitted Cut

Snug fitting and designed to contour your body.

MATERIALS

Aero-Therm™ Fabric

An insulated, supple material that is wind and water-proof with just enough stretch for comfort.

Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

DESCRIPTION

The Men's Flight cycling jacket is the top choice of our competitive riders due to the use of wind and waterproof Volare™ fabric. This extremely lightweight jacket has a body contour fit to help keep you as aero as possible when sporting an outer layer. Mainly used in training but works well in competition on those especially ugly days.

FIT DETAILS

Fitted Cut

Snug fitting and designed to contour your body.

Relaxed Cut

Comfortable fit with a little extra room throughout.

Kid's Cut

Comfortable fit with a little extra room to accommodate some growth.

MATERIALS

Plexus™ Fabric

A pliable 4-way stretch open mesh material with great durability and breathability.

Volare™ Fabric

An ultra-lightweight wind and water-proof material with 4-way stretch that is highly compactable.

FEATURES + TECHNOLOGIES

Reflective Technology Placement

High visibility trims are added to your garment to aid in low light situations.

Full Separating Zipper

A fully opening zipper which allows maximum ventilation control.

Zipper Garage

Designed to protect your skin from irritating zipper ends.

2 Way Opening Zipper

A top and bottom opening zipper for maximum ventilation control.

A micro-fiber elastic with silicone added to help keep your garment in place.

Tagless Labeling

A smooth surface, sublimated labels that will not irritate your skin.

Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

Mesh Vent Panels

Strategically placed mesh panels to allow for ventilation.

DESCRIPTION

The Men's Flight cycling vest is the top choice of our competitive riders due to the use of wind and waterproof Volare™ fabric. This extremely lightweight vest has a stretch mesh back and a form-fitting pattern to help keep you as aero as possible when sporting an outer layer. Perfect for your next road race, Gran Fondo or gravel grind.

FIT DETAILS

Relaxed Cut

Comfortable fit with a little extra room throughout.

MATERIALS

Ti Trentino Imprint™ Fabric

A medium weight brushed back stretch material with Aqua Zero water repellent treatment.

Mesh-Core™ Fabric

A large open mesh material which promotes maximum ventilation while exhibiting abrasion resistance.

AP Armored Peak™ Fabric

A heavyweight material that is wind and water-proof and includes an insulated inner surface.

FEATURES + TECHNOLOGIES

RT Reflective Technology Placement

High visibility trims are added to your garment to aid in low light situations.

ZG Zipper Garage

Designed to protect your skin from irritating zipper ends.

FS Full Separating Zipper

A fully opening zipper which allows maximum ventilation control.

2W 2 Way Opening Zipper

A top and bottom opening zipper for maximum ventilation control.

GS Glove Sleeve

A purposefully designed sleeve cuff that integrates with winter gloves for maximum warmth.

RS Removable Sleeve

A convertible garment that becomes a vest by zipping off the sleeves.

SG Silicon Gripper

A micro-fiber elastic with silicone added to help keep your garment in place.

WF Wind Flap

Stops wind drafts that come through the teeth of the zipper.

VUC Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

TL Tagless Labeling

A smooth surface, sublimated labels that will not irritate your skin.

LZ Locking Zipped Pocket

A 4th pocket secured with a locking zipper.

DESCRIPTION

If you don't deal with cold well, then our Men's Peak Combo jacket will help take the edge off. This jacket is the warmest in our collection with an extremely high insulated collar and an oversized cut to allow ample room for layering. The sleeves zip off converting the garment into a winter vest for when you find the jacket is just too warm for your needs. This winter jacket was designed for training days and the occasional warm up or cool down before early-season events.

FIT DETAILS

Bottom Cut

Tight fitting and designed to be like a second skin.

Kid's Cut

Comfortable fit with a little extra room to accommodate some growth.

MATERIALS

Ti Trentino Imprint™ Fabric

A medium weight brushed back stretch material with Aqua Zero water repellent treatment.

Tf Trentino Fixed™ Fabric

A 4-way stretch brushed back material that provides great insulation while being shape-proof, made from LYCRA fibers.

FEATURES + TECHNOLOGIES

🔒 Locking Ankle Zipper

A special zipper with a puller that securely locks in place to keep from opening.

⤴️ Power Fit Technology

A body-contouring fit designed to decrease aerodynamic drag.

🌀 Minimal Tension Bib Strap

A highly stretchable mesh strap for comfort and breathability.

🏷️ Tagless Labeling

A smooth surface, sublimated labels that will not irritate your skin.

🌈 Vibrant Unlimited Colors

Industry-leading digital printing technology that guarantees consistent, vibrant colors that last.

DESCRIPTION

Redesigned for this year's collection our Men's Zima cycling bib tights have evolved over the last decade into their current form: which provides all-day comfort for your cold day rides. Made from Trentino™ fabric which provides just the right amount of warmth without compromising fit or function. Perfect for all disciplines of cold weather cycling.

FIT DETAILS

Bottom Cut

Tight fitting and designed to be like a second skin.

MATERIALS
